

Afflatus Chapter II Brass Update 1.1

1. New instruments:
 - New category - **Sparks**:
 - 50 unique pads in 2 categories, each with 4 separate controllable layers
 - Curated Ensemble - **2 Horns 4 Cellos**:
 - Articulations: sustains, legato, flutter (with tremolo), marcato, tenuto, staccato, staccatissimo
 - Curated Ensemble - **Greek Horns** (Horn ensemble combined with analog synth):
 - Articulations: sustains, legato, flutter, marcato, tenuto, staccato, staccatissimo
 - Curated Ensemble - **Hybrid Low Brass** (Low brass ensemble combined with analog synth):
 - Articulations: sustains, legato, marcato, staccato
 - Experimental - **It Feeds Among Us**:
 - Sound designed brass swells
2. New MIDI CC controls:
 - CC14 is assigned to allow easy switch between Sustains and Legato type
 - CC22 is assigned to Close mic volume
 - CC23 is assigned to Decca mic volume
 - CC24 is assigned to Sections mic volume
 - CC25 is assigned to Hall mic volume
3. Improvements to mod wheel and transitioning between dynamics for long articulations
4. Various small bug fixes, tuning and mapping editing fixes.
